Greetings, it looks like we can squeeze the Friday morning meeting in and get back to our respective homes before the weather deteriorates too much. If the forecast changes, we'll proceed with the backup web meeting that Mike Morris has already set up – we'll make that call by 8 AM on Friday.

Agenda items include,

- Review of objectives
- Overview of the capping effort at Silver Lake
- Review of the attached task summary table – we'd like to review this line by line discussing the goals/assumptions/output for each task
- Clarify responsibilities and schedule going forward

Thanks, Steve

Steven Wolf
